Whether you live in a big city, small town or rural area, now is the time to train to start making money in this in-demand, secure industry. Just think about it. People will always need shelter...the housing industry is here to stay!

Millions of homes are bought and sold every year.

Whether the real estate market is up or down, or the cost of housing increases or decreases, the fact is that millions of homes are bought and sold every year! And in over half of those sales, home inspections were conducted. Imagine... millions of homes are sold every year and most of those sales involve Home Inspectors!

Home inspections are desirable because they protect buyers, real estate agents, banks and mortgage companies by disclosing problems in a property before the home sale is completed. Depending on the severity of the situation, the cost to repair those areas can be substantial. Home Inspectors can save a buyer thousands of dollars by determining the true condition of a home. That's why Home Inspectors are valued so highly!

No previous home inspection experience necessary...

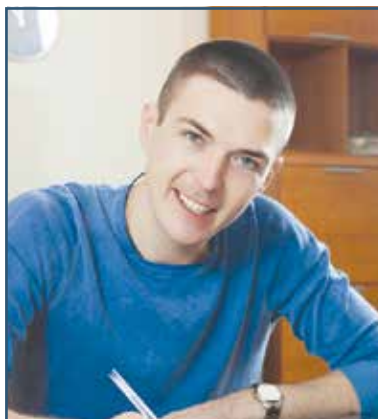

Plus, you'll be training at home to enter a field that gives you the opportunity to work full-time or part-time...for yourself or for one of the many home inspection companies and franchises located in nearly every community.

Training that fits your life.

Our Home Inspection program will teach you everything you need to know to start working as a professional Home Inspector...even if you don't have any previous home inspecting experience!

Training with us is easy!

Imagine a class that always starts the second you're ready. One you don't have to travel to attend. A class that moves quickly through lessons you find easy and slows down on the topics you choose. Think of having an expert instructor standing by to answer your questions and cheer you along, just a phone call or email away. This is no dream. This is U.S. Career Institute!

Set your own pace!

Go as quickly as you wish, graduate in as little as four months. Lessons are available as you need them. As you complete each assignment, send it to your instructor for grading. Then go on to the next lesson. No need to wait for the results of previous exams. And if you want to take time off for a vacation, your lessons wait until you return.

Open-book exams take the pressure out of testing.

We don't try to test you on how much you can remember. We help you learn what you need to know and show you how to find the answers to what you don't know. We believe that open-book exams—just like those many colleges use—are the best way to find out how much you can accomplish in the real world.
